More Information at LDHealth.org and douglascountyks.org/coronavirus

- The moving average graph does not include the most recent three days to allow lab results for those dates to be completed and ensure a more accurate calculation of the moving average for these data points. After a quality assurance check of our data, we also determined two cases among the 0-9 age group were not Douglas County cases.
- Dr. Jennifer, Schrimsher, infectious disease specialist at LMH Health, [in this video](#) discusses encouraging trends in Douglas County data recently and says residents can help keep it up by masking up, spreading out and taking other precautions moving forward.
