

COVID-19 Daily Update

2 p.m., March 27, 2020

Current Situation Overview – Douglas County

Total Positive Cases: 18

Travel-Related Cases: 14

Cases involving Local Transmission: 2

Transmission TBD: 2

Age Range: 1 is 10-19, 6 are 20-29, 4 are 30-39, 3 are 40-49, 2 is 50-59, 1 is 60-69, 1 is 70-79

Male – 11; Female - 7

With all cases, Lawrence-Douglas County Public Health epidemiology staff contacts these individuals and orders them to isolate themselves for a minimum of seven days, and if symptoms still persist, to continue isolating until fever free for three days. As part of our investigation, we identify potential contacts who we believe are at high risk for exposure. We then notify and order these individuals to quarantine themselves for 14 days following last exposure, and Public Health staff monitor these individuals for symptoms.

Other Information

- Given we have two instances of local transmission in Douglas County, and the likelihood these numbers will increase in coming days, Lawrence-Douglas County Public Health, LMH Health, Douglas County and the City of Lawrence have activated what is known as a Unified Command under the National Incident Management System. We are all working closely with the cities of Eudora, Baldwin City and Leocompton in addition to schools and universities, law enforcement agencies, first responders, human service providers and others to protect the safety, health and well-being of all Douglas County residents and to provide critical services.
- In recent weeks, the Unified Command has taken action to institute social distancing measures in the community and encourage people to stay at home and away from crowds to limit spread of the virus. Right now the best thing the public can do is follow the [Stay at Home order](#) that took effect Tuesday, March 24, and the public can access online [our message and guidance to businesses](#) as well as the [complete order](#) and a set of [FAQs](#) that help define essential services and activities.
- If you have a question about a public health order, you can email phorders@ldchealth.org.

Douglas County residents can also stay informed as information changes frequently. For more information visit LDHealth.org/Coronavirus or douglascountyks.org/coronavirus.

Note to Media: We will plan to release these daily updates in the afternoon.
