

Schwegler Elementary School

2014 Safe Routes to School: Classroom Tally Results

Month and Year Collected: October 2014

School Enrollment: 432

Classroom Participation: 20

This report contains information on the ways in which students travel to school using a survey instrument that was developed by Schwegler Elementary School. Students were surveyed by classroom to find out if they traveled to school on foot, by bus, or by car. Other travel modes were not captured in the survey. The total number of students who responded to the travel tally survey was 382 with representation from grades kindergarten through fifth.

Figure 1. All student responses by mode of transportation.
